Subject: RE: Reimbursement verification

Hello Renz,

Sorry for the delay. I'm looking over the document and it doesn't clearly specify that the charges are for the course only, but instead indicates the amounts that are paid to each position. Do you have any other documentation that explains these charges so that I can answer your question accurately?

Subject: Reimbursement verification

Hi TAP,

Good day!

As I am taking my Master's Degree and to be able to finish it I have Thesis course/research requirement. I asked the school if there are any fees that I need to pay for my Colloquium and Final Thesis deliberation and they provided me the fees that I need to pay, please see attached file. The fees will not be included on my Tuition fee or on student assessment form and it will have its own receipt. I would like to verify if these charges are reimbursable.

Thanks!

Regards,

Renz Ignacio
